The school has agreed the following arrangements to ensure the safety and security of staff, pupils and other persons using the school premises.

### 3.1 Information and Communication

All staff must be aware of the school's security procedures, especially staff that have been given a specific role to play.

All staff inductions will include the school's security policy and will be recorded on the employees training profiles. Records of which are kept in the school's Risk Register.

These arrangements will be communicated to all third parties that use the premises and grounds. All will be expected to comply with the schools security arrangements as a condition of shared use of the building.

Parents will be informed about the school security arrangements and what is expected of them, e.g. when visiting the school or at handover times.

### 3.2 Controlled access and egress during the school day

Controlled access is a combination of measures to ensure that unauthorised visitors do not present an unacceptable risk to pupils or staff.

The extent of physical controls, such as fences, has been decided by a robust risk assessment of the likelihood of visitors presenting a risk and the reasonableness of the control measures needed to reduce this risk. Staindrop CE Primary School has, through risk assessment, balanced the need to remain a welcoming environment to the community and safeguarding pupils. The risk of pupils absconding and the potential for injury while doing so should be taken into account when designing, installing and maintaining physical controls.

### Buildings

The school will take all reasonable efforts to restrict access to the building to prevent unauthorised access to children and ensure the personal safety of staff.

The access control procedures for the building are – (please complete with your own details, examples are given below)

- The main building has only single access entrance via entrance vestibule. Only authorised visitors allowed access via intercom on wall outside.
- The door can only be opened by access control.
- All doors except main entrance cannot be accessed during the school day.

- The location and layout of the school
- Past incidents related to security
- The performance of other security measures already in place or that could be implemented.
- The cost of physical security improvements and the availability of funding.

Where justified by consideration of the risk governors will ensure that physical security measures are installed. Where physical controls are not justified the governing body will ensure that other controls are implemented by the school to ensure the safety of staff and pupils.
